WASHINGTON.—John F. Kramer, federal prohibition commissioner, Saturday predicted that whole-sale arrests of bootleggers may be expected soon in all parts of the country under constitutional prohibition, which became effective Friday night.

"With thousands of detectives at work all over the country Saturday," said Kramer, "we plan drastic and quick measures to make the law effective."

Kramer said his prohibition army of special agents, lawyers and state commissioners, has practically completed its organization. More than 1,000 men are on the job Saturday, prepared to enforce the law to the very letter, Kramer declared. Assistance will be given them by officials of the justice department. The postoffice and the internal revenue bureau. The law so requires help from local police and all other state, county and municipal officials.

This means more than 25,000 officials are ready to suppress bootlegging and the illicit sale of liquor, according to prohibition headquarters here. The traffic in liquor, wines, beer and all forms of intoxicating beverages Saturday is completely outlawed throughout the United States under the constitutional prohibition amendment and the Volstead enforcement act. Liquor of no description may be manufactured, sold, transported, imported or exported for any except the purposes and the only with special permits issued by the government. This applies to home brews.

Explicit regulation will cover the manufacture and sale of alcohol and a score of other commodities, like hair tonic in which alcohol is present, are in effect Saturday. The regulations made public late Friday night are in the hands of thousands of special agents and lawyers in every part of the country Saturday. Commissioner Kramer Saturday called attention to one clause of the regulations as of utmost importance and interest to the public generally. This regulation provides all who have stocks of liquor on hand for other than personal use must report the exact quantity to the international revenue bureau within ten days. A heavy fine is the penalty for violation of the clause.

The regulation is designed to apply to stocks of liquor held for commercial purposes. Thousands of former saloon-keepers, hotels, caterers and distillers, are affected. Officials estimate that approximately 60,000,000 gallons of whiskey, rum and gin are now stored in the United States. These stocks are valued at millions of dollars. What to do with them now has become a national problem.

Internal revenue bureau officials say the answer to the problem must be framed by congress, it being a matter of public policy. Owners of the stocks it is presumed, must not be allowed to lose the entire value of their properties if this can be prevented. And yet under drastic constitutional prohibition, the vast stores cannot be sold for export. Altogether these stocks may be sold for non-beverage purposes, this market is far too small to absorb them, officials say.

Meanwhile, until congress decides what can be done with these stocks, the owners are daily losing more money on them, officials say. This is because most of this liquor is in bonded warehouses, where the up-keep expenses are very high.

YOUTH ARRESTED FOR

ENTERING STORE

Following a complaint that there were a number of petty thefts at the Green and Green Company, 215 east North street, Warren corner, 19, 906 east High street, was arrested Friday night and charged with burglary and larceny. Cotner was caught after Detective Kipker had been planted in the building. The boy was employed as a driver by the company and according to police had made frequent trips thru a rear window and had taken a few dollars at various intervals. The entire amount of money which has been stolen is not yet known. The amount will reach about \$40, police say.

LOST SUIT, SEEKS HEART BALM

Asks \$5,000 For Alleged Breach
of Promise.

Defeated in a civil suit for dissolution of partnership in a grocery business and the setting aside of a contract, Miss Frances Lichty, 724 east Second street, immediately filed suit for damages for \$5,000 against George Kyle, proprietor of the Kyle Cash Grocery, 806 Dingleline avenue, defendant, in the first suit, charging breach of promise. Kyle is single.

Miss Lichty's attorney walked directly from the court room, after Judge Klinger had announced his decision, and filed the suit in common pleas. He had made up the petition and carried it in his pocket. She sets forth in her petition that on August 1, 1917, Kyle proposed marriage. When he did not fulfill the condition of his request on July 1, 1919, she urged that the marriage be consummated, claiming she had remained single at his request.

She is ready and willing to marry him yet, she states, but he refuses to carry out his part of the agreement.

The love affair figured prominently in the civil suit. In June, 1917, Miss Lichty and Kyle engaged in a partnership for the operation of the Kyle Cash Grocery. She claims she put in \$1,650 and he put in \$300 in money.

They started business August 1, at the time Miss Lichty claims he asked her to marry him. She says it was on July 8, 1919, that she signed the dissolution contract, under threat and menace of her life.

The petition sets forth Kyle told Miss Lichty he would break every bone in her body if she did not get out of the store. Then she signed the contract.

Petition Alleges Husband Broke
Furniture and Dishes

Three suits for divorce were filed in common pleas court by dissatisfied wives against their husbands.

Charging that her husband assaulted her, at the same time becoming so angry he broke up furniture and dishes and dented the plastering in the wall, with his fists, Mrs. Lelah Sterick Miller, Delphos, is asking a divorce from George Miller, Delphos. She says in her petition he threatened to kill her.

They were married in Delphos in April, 1916, and have a two-year-old child.

Mrs. Mary Cook Burgess is seeking a divorce from Ardale C. Burgess, who is now in Jeffersonville, Indiana, penitentiary. They were married in September, 1918, in Lima.

Mrs. Edna Isaacs Delph, charged Howard Delph, refused to provide her the necessities of life and threatened to kill her. He is an employee of the Garford Truck company and resides on west Haller street.

THRIFT WEEK TO

BE OBSERVED

Churches Have Arranged Pro-
grams for Sunday Services

Practically every church in Lima Sunday will observe Thrift Week by rendering special programs relating to the question of thrift.

Pastors of numerous congregations have reported at Thrift week headquarters that special talks or thrift will be given at the different services and that the churches will be as one in preaching the doctrine of thrift to members of the congregation.

As part of the campaign at the Y. M. C. A. Dr. T. D. Williams, well known here, will deliver an address Sunday afternoon on "Money, Men and Morals." All men and young men in the city are requested to attend this meeting.

FURNITURE SOARS

Local Merchant Predicts Higher
Prices Still.

Furniture prices are on the increase. And they have not yet reached the dizzy heights to which they are likely to attain.

So said William H. Roush, secretary and treasurer of the Hoover-Roush company, furniture dealers, 57 Public St., upon his return from visit to the Grand Rapids and Chicago furniture markets Friday.

Roush spent ten days among the furniture markets. "I found furniture prices on the increase and likely to go even higher," he said. "Quarter-saved oak furniture is scarce and has advanced over mahogany. It used to be that mahogany went above almost everything in price," he said.

While there Mr. Roush made purchases for the Hoover-Roush furniture store.

WARNING AGAINST

FLU ISSUED

Healthier Jones Gives Rules to
Prevent Epidemic Here

That Lima has been fortunate in escaping a return of the influenza epidemic which now is visiting large Western cities, is the opinion of Health Commissioner Dr. Jones.

"We have been lucky but our luck may not last. We must take precautions against contracting the malady," said Jones today.

The disease which spread thruout Lima a year ago is again breaking out in many large cities and may break out here at any time, the health commissioner says.

"At this time we have practically no cases of influenza," the health officer said. He also stated that the pneumonia, flu's big brother, has been comparatively absent in the past.

Yet, Dr. Jones says that the present weather is conducive to the diseases and the citizens should guard themselves against same at all times.

"Watch epidemic colds," says Dr. Jones.

More colds which are not properly taken care of result in influenza and pneumonia than can be imagined. Persons must be educated to take good care of their slight colds in order that influenza or pneumonia does not set in," he declares.

Grippe one of the sister diseases of influenza often results in pneumonia, the health officer states.

Very few cases of grippe have been brought to the attention of the board of health.

Jones issued the following warning today:

"If you have the grippe go to bed. Do the same thing if you have a touch of the influenza."

"Cover up each cough and sneeze; if you don't you'll spread disease. Coughing, spitting, and sneezing convey disease to others. Influenza, pneumonia, and consumption are spread in this way."

"When you must cough or sneeze, cover your mouth and nose with your handkerchief where it can be reached quickly."

DEMOCRATS PLAN

FIRST MEETING

Will Arrange For San Francisco
National Convention Today

NEW YORK—Homer S. Cummings, chairman of the Democratic national committee, was to confer here Saturday with party leaders on arrangements for the national convention in San Francisco June 28.

Members of the committee on arrangements, who will have luncheon with Cummings at the National Democratic Club are:

Mrs. George Bass, Chicago; May E. Foy, Los Angeles; J. Bruce Kramer, Montana; Wilbur M. Marshall, Iowa; Edward G. Hoffman, Indiana; Clark Howell, Georgia; Norman E. Mack, New York; Fred E. Lynch, Minnesota; Charles Deschanel, Illinois; E. H. Moore, Ohio; Arthur F. Mullen, Nebraska; Dr. John W. Coughlin, Massachusetts; Isadore B. Dorkweiler, California; John T. Barnett, Colorado; Patrick H. Quinn, Rhode Island; and Robert H. Elder, Idaho.

General Leonard Wood, candidate for the Republican presidential nomination, arrived here Friday night for a conference with his managers. He was to be the guest of Otto H. Kahn, at luncheon Saturday and will address the chamber of commerce in Providence, R. I., Saturday night.

George Wood, Lincoln, Neb., one of three brothers who are nursing a Republican boom for General John Pershing, said Saturday that Pershing headquarters would be established here next week.

DESCHANEL NEW CHIEF OF FRANCE

Had No Opposition in Effort to
Become Executive of Nation

CLEMENCEAU QUILTS POLITICS

Appeared As Candidate Unexpectedly—Term Starts Feb. 18

VERSAILLES.—Paul Deschanel, president of the chamber of deputies, Saturday afternoon was elected president of France by the joint assembly of the senate and chamber of deputies. He succeeds Raymond Poincaré.

Deschanel received 734 votes. He has long been a prominent figure in French politics. He was first elected president of the chamber of deputies in 1898, after a career in minor offices. He served until 1902 and was again elected in 1912. He is a member of the French Academy and the Académie des Sciences and has written extensively on political, social and economic questions. Deschanel was born in 1856.

The Royal theatre was crowded when the voting began. It went only \$86, while the joint membership of the senate and chamber is 940. Chairs were placed in the aisles.

The balcony which seats 669 was reserved for the diplomatic corps and high state officials.

Leon Bourgeois, president of the senate, presided at the voting.

Preceded by uniformed ushers and surrounded by high chamber and senate officials, Deschanel entered the theatre and took his seat in the center of the stage, where he read the presidential decree, convoking the assembly.

When the roll call began, each senator and deputy proceeded toward the stage, as his name was called, and received a small rosewood ball. He mounted the stage, voted and then descended, returning the ball when the voting finished. The number of balls given out must correspond to the number of votes cast. Every ball must be returned and the total number checked against the number given out.

Following the election, the new president received congratulations and was then escorted thru lanes of troops to a waiting automobile, which carried him to Paris.

Sunday the newly elected president will call upon President Poincaré, who later will return the call.

STEAM HEAT RATE

INCREASED

Utilities Commission Allows
Boost Over Schedule Filed.

The state public utilities commission at Columbus Friday passed on the matter of increased heating rates filed by the Ohio Electric.

The utilities board allowed an increase over the schedule filed by the company some time ago.

Also said that it is the plan of the committee to start work on the building by March 1st.

According to a statement made by Capt. in Horner another troop of cavalry will be recruited here as soon as the coliseum is finished. Horner also said that it is the plan of the committee to start work on the building by March 1st.

He added, however, that the matter would be taken up at the next meeting of the city council. Council is expected to determine the next step for the city.

Burkhardt was unable to state what percent over old rates the board would be. It was his contention that the increase would amount to a considerable figure.

Manager James C. Duncan of the Ohio Electric stated Friday night that he was not in possession of a copy of the increased rates.

The ruling of the commission backs up rates in force since 1918. The utilities commission has not ruled on the matter of increased rates of the Ohio Electric for light and power.

YOUTHS SWINDLED

OF CASH

Pledged Part of Transportation
to Mobile with Stranger.

A clever swindle scheme was uncovered when two young men whose names have not been made public, reported to police Friday night that they had been swindled out of \$15 each. The young men stated that a man giving his name as K. Long and claiming to be the representative of the Drake Engineering Company in Boston, had offered them good positions in Memphis, Tenn.

They accepted the positions and made arrangements whereby the young men were to pay two thirds of their railroad fare. Long was to have met them at the Norval Hotel at 7:30 Friday evening with their tickets.

The young men arrived on time only to find that Long had checked out of the Hotel at about 6 o'clock. Police are working on the case but had found no trace of Long at a late hour Friday night.

Service Director Elmer McClain announced Friday night that repairs had been completed to render the east North bridge over the river safe for traffic. It has been thrown open to both vehicle and pedestrian traffic, he said.

BRIDGE OPENED

Tonnage Limit May Be Placed on
North Street Structure.

Service Director Elmer McClain announced Friday night that repairs had been completed to render the east North bridge over the river safe for traffic. It has been thrown open to both vehicle and pedestrian traffic, he said.

The bridge received new planking and the railing was repaired to prevent any possible fall over the side into the water below.

The bridge over the quarry at this point is still closed to vehicle traffic. Foot traffic is possible over this structure by the placing of planks where repairs were needed.

The service director said that in the near future planks in the middle of the river bridge would be removed to prevent an examination of the structure below. Following this inspection by the city engineer, Miller, a tonnage limit will be placed on the bridge. A sign will be erected stating the maximum amount to be carried over the bridge.

SEEK ESTIMATE OF
ARMORY COST

Contractor Asked to Name Poss-
ible Expense.

Plans have been placed in the hands of Frank C. Smith of Smith and Sherick, contractors, for the purpose of obtaining an estimate on the cost of the erection of a coliseum which will be used by the two National Guard organizations in conjunction with the Allen County Fair Association.

A meeting was held Thursday by the members of the Kiwanis Club Committee which was appointed to find a suitable location for an armory and Captain Jack Horner, commanding Troop E, 1st Ohio Cavalry, and E. O. Zurnmeyer, of the Allen County Fair Association. At the meeting the plans for the coliseum were furthered and the sale of stock in the coliseum was discussed.

Horner stated Friday night that there are three or four sites in view but no definite action has yet been taken. The present unofficial estimate of the cost of the building is about \$46,000. According to plans the building will be built in the shape of a letter "T" with dimensions of 275 feet by 100 feet. Stable room is not included in the building.

It is expected that the stock in the coliseum will yield about 7 or 7 1/2 per cent interest. It was announced Friday already that Horner and Hookers, breeders of speed horses, have offered the sum of \$500 per week for the right to use the proposed coliseum for a period of two weeks each year for a period of five years.

According to a statement made by Capt. in Horner another troop of cavalry will be recruited here as soon as the coliseum is finished. Horner also said that it is the plan of the committee to start work on the building by March 1st.

AMERICANIZATION

PLAN EXTENDED

Burkhardt Includes Teaching of
Women in Scheme.

The program of Americanization announced recently by Mayor Burkhardt has been extended to include the foreign born women in the city. Burkhardt declared Friday night that plans were under way to recruit the aid of prominent club women in the city for the work.

At present the work is being confined to classes at the Y. M. C. A. These classes for men only are to be supplemented by home meetings in the foreign section of Lima.

Burkhardt declared that it was his intention to carry the Americanization to the women who could not attend the night classes.

Safety Director Fred Fisher will be asked to provide space in the outlying fire station at Main and Lafayette streets for meetings.

At these sessions the women will be initiated into the ideals and customs of America, the mayor said.

The club women will be asked to make a survey of the city to secure the names of foreign families. At present Burkhardt stated that there are approximately 500 non-speaking foreign born families in the city.

The survey is expected to add more to this list.

Work of Americanization is progressing at the Y. classes, but Burkhardt said he was anxious to have the propaganda extended to further fields.

LIMA QUIET AS LID
IS CLOSED

Passes Eve of Prohibition With-
out Celebration of Revelers

Old John Barleycorn "kicked the bucket" last night.

His supporters in Lima stayed up until a late hour in grieving at the condition of their century old friend, grew weaker, until he finally took his last breath at 12:01 o'clock, Friday midnight.

In equally strong forces his enemies—those who have hoped for years, and fought tirelessly to down their foe of "Old King Liquor," remained up to celebrate the victory they have strived for.

At midnight the women of the W. C. T. U., and their supporters celebrated in a style most appropriate in commemorating the fight they have waged for the thing which has just come to reality—Prohibition.

"Furnace" parties supplied diversion for those who today are mourning over the death of J. B.

No "parties" were held in the city where "thirsties" celebrated to annoyance.

NEW YORK.—Broadway mourned over the wet ber of John Bar Le Corn Saturday.

The lid was drawn over all that was mortal of that once popular favorite at 12:01 a. m. and the great white way was lined with Bacchanalian revelers who henceforth must tread the straight and arid path of sobriety.

When the 18th amendment, with its running mate, the Volstead enforcement law, became effective in the United States, including its possessions, Gotham failed to live up to expectations.

There were "parties" galore, but the wild night that had been predicted, was almost dismal and the Old Soak said Saturday that if John B. had a kick Friday night, he must have worn rubber soles. A few restaurants held wet funeral ceremonies, but there were no orgies.

Mayor Frank A. Burkhardt took up complaints of residents of the south side of the city Friday concerning the destruction of the foot-path along the Metcalf street bridge.

The bridge is being torn away to start work on the new structure. With the destruction of the bridge, went the footpath which pedestrians must use in crossing the railroad tracks.

Complaints at once reached the mayor, although Allen county is responsible for the condition. Mayor Burkhardt took up the matter with county commissioners who promised the situation would be remedied.

Unless the path may be used, it was necessary for residents south of Market street to use the Pierce street bridge, causing them inconvenience and loss of time in arriving at their work at South Lima industries.

WEALTH OF RECLUSE IS
FOUND TO BE ONLY \$580

ADA—John Parker, 79, recluse, and generally believed to be wealthy, evidently died a poor man. When County Auditor Jones last night opened the safety deposit box held by Parker at a local bank \$580 in gold coins was all it contained.

Parker was asphyxiated at his home here a week ago. He was regarded as wealthy; he believed to hold the key to an old mystery and was known to be at odds with the world. He had lived alone and had little dealing with other persons.

NEWTON TEA PLANT RAZED

Loss is Estimated at \$150,000
—Fighters Stick to Posts

CINCINNATI.—During death in the shadow of bulging flame-flecked walls, scores of police and firemen early Saturday dug from debris of the Newton Tea and Spice Company building bodies of three firemen, trapped by falling tons of masonry.

Fourteen other firemen, caught in the fall of a five-story wall, were rescued and rushed to General Hospital to continue their fight for life. It was "horrendous box" Number 13, which summoned the 17 victims to their fate.

The building, standing close to the Suspension Bridge over the Ohio river, was reduced to a gaunt ice-coated ruin, with a loss estimated at \$150,000.

When firemen arrived, it was a roaring furnace. Six lines of hose were stretched on the bridge to pour streams of water thru third floor windows.

Police, holding back hundreds of onlookers, saw the upper wall bulge above the firemen. They shouted a warning.

Firemen looked up. The wall, for a moment, looked as if it would hold. They stuck to their posts.

GEORGES'LL WIN SAYS DESCAMPS

PARIS.—(United Press.)—The date and conditions for the battle between Jack Dempsey and Georges Carpentier for the heavyweight championship of the world will be definitely settled within two or three days, M. Descamps, the Frenchman's manager, declared Friday.

Descamps said the bout will "take place sometime between the first of September and the last of November" and that it probably would be staged in New Jersey, or some other point near New York. This forecast, followed receipt of an offer from Tex Rickard, the American promoter.

The contract with Carpentier, held by Charles Combs, the British promoter, expires February 1, according to Descamps. (Cochran, now in New York, says his contract "runs well into 1921.")

"I do not believe there is any chance of holding the fight anywhere but in America," said Descamps, who places the offer from Rickard at the top of a list of four "serious offers" from the United States. While Rickard did not specify any location, Carpentier's manager said he understands the Amer-

Try Making Your Own Cough Remedy

You can save about \$2, and have a better remedy than the ready-made kind. Easily done.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any drugist 2 1/2 ounces of Pinex, pour it into a pint bottle, and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant, and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, soothes the inflamed throat, and helps the sore inflamed membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated amount of genuine Pinex, with full instructions and full amount of money promptly returned. The Pinex Co., Ft. Wayne,

NEW YORK.—Another boxing bill will be introduced Monday in the state legislature by Senator James J. Walker, it was announced from an authoritative source here this afternoon.

The Walker bill, which has the backing of the army, navy and civilian board of boxing control and the sporting club, is said to provide for from 12 to 15 round bouts to a decision to be supervised by a state commissioner and a boxing bout board.

The Ross bill, which is said also to be on the calendar for introduction Monday has practically the same provisions with the exception of the method of the jurisdiction.

CENTRAL HIGH OUTCLASSED

Dropping field goals thru the net from all angles yet maintaining a stiff guarding game which allowed Central High to cage but one field goal. Green's crackerjack basketball team walked away from Central High Friday evening by the final score of 29 to 6.

The local could not hit their stride during any part of the game and were completely at a loss at all times.

At no stage of the game did Central show the fight and team-work which characterized her playing at Fostoria last week. Officials of the team claim that lack of condition on part of local men was responsible for the overwhelming defeat.

Bowling Green presented one of the stiffest cage outfits which has visited these parts in some time. A splendid five men defensive system of play was uncovered as well as exceptional ability in dropping in the long shots and working the ball close to the loop then dropping it in.

The visitors started out the first half with whirlwind speed and when the first twenty minutes of playing were finished Central was on the short end of a 21 to 6 score.

A closer guarding game was played by the locals in the second half but their shooting remained inaccurate.

Central scored but one field goal during the entire affair, the remaining points resulting of goals from free throw line.

The playing of Blunk was the outstanding feature of Central's play. His guard work was of the class variety at all times and held the visiting forwards to few points in the second half.

The teams line up was as follows: Central: Bowling Green Young, r. f. Householder Laughlin, l. f. Skiffie Edwards, c. Reigle Blunk, r. g. McGinn Douglas, l. g. Young 6; Bowling Green, Householder 11, Skiffie 8, Reigle 8, McGinn 2. Substitutes—Dilly for Blunk, Layle for Laughlin for Edwards.

RUGBY RULES UNCHANGED

NEW YORK.—No lengthy sessions will be required next fall to explain new rules to the embryo gridiron heroes.

For there will be no new rules. At least this hunch was given out at the recent pow-wow of university athletic heads.

For the most part the gridiron tutors seem satisfied with the existing statutes. Rather, they are reluctant to experiment with unproven remedies for the few ills that were cited.

The rules committee of the National Collegiate Athletic Association had no suggestions for new legislation and very few recommendations were brought to the attention of the new committee.

Existing rules which permit of "no decision" affairs in the way of tie games are generally condemned but no logical solution was offered.

Glenn Warner, coach of the University of Pittsburgh, was in the group wanting the kick after touchdown abolished.

YOU NEED NOT SUFFER FROM CATARRH

But You Must Drive It Out of Your Blood.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing difficult breathing and other discomforts. Real danger comes when it reaches down into your lungs.

This is why you should at once realize the importance of the proper treatment, and lose no time in experimenting with worthless remedies which touch only the surface.

To be rid of Catarrh, you must drive the disease germs out of your blood.

Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs for which it is a perfect antidote.

Children Cry for Fletcher's Castoria.

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotics, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions of the cells which are likely to become permanent, causing irascibility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy.

The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of Chas. H. Fletcher

CAPITALIZATION

Seven Per Cent. Cumulative Preferred Stock	\$1,250,000	\$1,250,000
Common Stock	1,000,000	1,000,000

The Company has no bonded indebtedness.

We summarize from the attached letter of Mr. W. C. Runyon, President of the Company, as follows:

ORGANIZATION AND BUSINESS: The business was founded in 1869, and the present Company was incorporated in 1896; it manufactures principally basic pig iron used exclusively in the production of high grade steel, and also foundry pig iron.

PROPERTY AND EQUIPMENT: The Company's property comprises 36 acres, located at Struthers, Ohio, one of the most important steel production centers, in which are situated plants of the Youngstown Sheet & Tube Company, Republic Iron & Steel Company, United States Steel Corporation, Brier Hill Steel Company, and other large mills. The equipment includes a modern blast furnace with a production of 15,000 tons monthly, a recently completed power house, a new pumping plant with a capacity of 18,000,000 gallons daily, casting machines, locomotive cranes and completed yard switching equipment. The Company is now erecting a modern crushing plant for the profitable disposal of slag, a valuable blast furnace by-product. The Company owns through a subsidiary a coal mine in the well-known Connellsville coke region of Pennsylvania, comprising 235 acres of coal and 44 acres of surface land. Its coke plant consists of 200 ovens. The Company owns in equal partnership with the Cleveland Cliffs Iron Company, of Cleveland, two iron ore mines containing approximately 3,000,000 tons of iron ore. All these properties are free from any encumbrances.

EARNINGS: Average net earnings for the three years and eight months ended January 1, 1919, before Federal taxes, amounted to \$507,058, and after deduction of Federal taxes to \$229,897, equal to more than two and one-half times dividend requirements on this issue of Preferred Stock. In view of favorable contracts and the steadily increasing demand for the Company's products, in addition to the revenues derived from the operation of the slag crushing plant, earnings show continued appreciation. Since incorporation the Company has paid annual dividends averaging 12% on its Common Stock.

ASSETS: Total net assets after giving effect to present financing amount to \$4,947,202, or approximately \$400 a share, while net quick assets amount to \$1,988,668, or about \$160 per share.

PURPOSE OF ISSUE: The proceeds from this issue of Preferred Stock will be used for additional working capital for the contemplated expansion of the business, and for the reduction of floating indebtedness.

REDEMPTION FUND: Beginning January 1, 1922, the Company will set aside each year 10%, beginning January 1, 1927, 15%, and beginning January 1, 1933, 20%, of the net earnings of the preceding year, after all proper deductions, for the purpose of redeeming Preferred Stock through purchase in the market, or by call, at not exceeding 105 and accrued dividend.

SAFEGUARDS: Without the consent of holders of at least 75% of the par value of the outstanding Preferred shares, the Company may not place any mortgage or lien (except purchase money mortgages) on its fixed assets, or issue any indebtedness maturing later than one year after their date, nor may any stock ranking ahead of, or equal with, this Preferred Stock be issued. The Company agrees to maintain at all times net quick assets equivalent to not less than 100% of the par value of this stock outstanding; no dividends may be paid on the common shares, unless net earnings applicable to dividends on the Preferred Stock are equal to at least one and one-half times annual dividend requirements on this stock. The Preferred Stock shall have equal voting power with the Common shares if four consecutive dividends on the Preferred Stock have been passed.

MANAGEMENT: The management of the Company will remain in the hands of the men who have successfully developed its business, and they are assisted by an efficient organization especially adapted to the business.

Legal proceedings in connection with this issue will be under the supervision, and subject to the approval of Messrs. Tolles, Hoggsett, Ginn & Morley, Attorneys at Law, of Cleveland. The accounts of the Company have been audited by Messrs. Ernst & Ernst, Certified Public Accountants, Cleveland, and plant and equipment have been appraised by Messrs. Arthur G. McKee & Co., Contracting Engineers, Cleveland, and the real estate by Bruce Campbell, Secretary and Treasurer of the Struthers Furnace & Banking Company.

WE RECOMMEND THIS STOCK FOR INVESTMENT

AS YOU LIKE IT

BE OF GOOD CHEER
Do not worry over the doings of the profiteers. They can't snuff you out even though they raise prices beyond the reach of the hook and ladder company. We have been digging into history and have prepared a message for the American people in their hour of need.

What the ancients did, you can do. Now listen:

St. Anthony lived to the age of 105 on twelve ounces of bread and water daily. James the Hermit lived until he was 101 and he never had a potterhouse steak in his life.

Shimon the Stylite lived to the age of 112 and he lived on roots and yams.

St. Ephraim lived 114 years on bread and water. Kestien stuck around 135 years and he never ate in a restaurant more than once or twice in his life.

Louise Lattean lived twelve years without any food at all.

So, as Dr. Munyon was wont to say: "There is hope." Consider the ancients and hang on until Europe has been fed up.

Two questions have I pondered
Since but a little child;
Where did Victor Hugo?
And what made Oscar Wilde?

AN ORE TO MONEY
The rose is red,
The violet blue,
Sugar is scarce
And so are you.

Apparently business is going on as usual in Germany.

The other day an American soldier in the occupied territory was surprised, when passing a German saloon, to see the proprietor come hurrying thru the front door, followed by a vicious kick. He rolled over in the road and the soldier hastened to his assistance.

"Oh, dot is all right, Herr Subdai," said the saloon keeper. "I was just trying my new out-thruster. He gets der job."

"Why is a telephone book?" queries Ilex. But a better question still—why is a telephone?"

Our friend William Bradford Dickson has caused deep pangs of jealousy to pierce our mortal frame by announcing confidentially that he has 150 tons of pure white sugar placed with him for sale, and has had such poor success in selling it that he is now sprinkling it on the sidewalk every morning to keep the passers-by from slipping.

Occasionally a vent ad. speaks the truth, as the following in the Brooklyn "Eagle" will prove:

DISHMASHER wanted; call Victoria Hotel.

Just to keep the record straight we mention the fact that according to Art Mann, a gentleman by the name of Lottis has a real estate office in the Bronx.

Why take a new census? Just put down the names of those who have been mentioned or have mentioned themselves for the presidency and the result will be about the same.

The Snow.

A SNOW storm always puts everyone in good humor, says the Toledo Blade. There is magic stimulation and exhilaration in the gentle smart which the flakes bring when a brisk wind dashes them against the face.

THE FIRESIDE seems cozier for fifteen minutes spent ploughing through the drifts and there is none of that messy feeling such as one has after a few minutes spent in a rain storm. There is a suggestion of tears and sadness in the patter of rain drops, but there is joy in the very sight of snow flakes. They cover the city's ugly spots, they give a quaint aspect to familiar objects, there is piquancy and mystery in the change they work upon the crowds in the street.

THE VERY YOUNG love to burrow and wallow in the snow, to make snowballs and forts of it and to coast and slide upon it. The old like to watch it come down, or perhaps if warmly clad and not too old, to kick through soft drifts of it and walk an extra block or two just for pure love of the clean, fresh world. Our emotions are as ready as ever to respond to the stimulation of the snow, but alas where are the bob-sleds, the trim cutters and the three-seated sleighs in which we used to pile well bundled-up and go skimming through a white wonderland behind sharp shod horses? Sweetest and best remembered of all, where are the bells, the joyous jingling bells, which used to play magic music to which our hearts leaped and danced even as the flakes in the air about us?

THEY ARE all gone. We still have the snow, but the yutties and sleighs are stored away in forgotten barnlofts and our winter music is the snort of motors and the backfire of five-ton trucks.

The Prohibition Situation.

WHILE THE DECISION of the United States Supreme Court as regards to beer knocks another prop from under the "wets," it is not final in ending the controversy, says the Oil City Derrick. The decision was based on the war-time powers of Congress to enforce prohibition by arbitrarily fixing the limit of alcoholic content in beer. These war powers are conferred by the Constitution. Whether the definition of Congress as to the intoxicating value of the article is correct, was not considered. That is a different phase which will probably be tested later.

THERE ARE YET two important questions relative to prohibition to be passed upon by the Supreme Court before the obsequies of the liquor traffic are concluded, and both have to do with the eighteenth amendment. One is the constitutional question whether Federal prohibition infringes the rights reserved to the States. The other is the question whether the eighteenth amendment was legally ratified by the States. Rhode Island has taken the lead in raising the contention that its rights have been invaded by constitutional prohibition, and other States are expected to join in the issue. The ratification question hinges upon the referendum and involves the dispute regarding the necessity for a popular vote on ratification by those States which have adopted the referendum as a part of their legislative machinery.

UNTIL THESE TWO contentions are judicially disposed of prohibition cannot be said to be permanently established, for while it is true that every decision of the Supreme Court to date on the liquor question has been favorable to the prohibitionists, yet an adverse opinion on either of these two issues would upset the whole structure. If it should be held that the legalizing or suppression of the liquor traffic is one of the rights reserved to the States when the Constitution was adopted, the whole scheme of Federal prohibition would fall, and if the court should decide that the referendum must be applied, then the approval of enough States might be withdrawn to nullify ratification of the amendment.

Constant Bronchial Cough For 16 Years

Then Mrs. Crawshaw stopped her cough so quickly it alarmed her.

"I suffered with bronchial trouble and asthma for 16 years. In January, 1917, I had an unusually severe spell, resulting in pneumonia and was confined to bed for 4 months. Then I began to mend, but my cough never left."

The following October, I used Mils Emulsion. After a few days my cough gave way, and ceased entirely after another bottle—so sudden that I became alarmed. Getting over my fear, I took a bottle more. For 3 months previous I had coughed night and day, but my cough ceased entirely. For 16 years I used all kinds of medicines until I became skeptical. But the results from Mils Emulsion were nothing short of marvelous." Mrs. J. R. Crawshaw, 1128 Grand Ave., Des Moines, Iowa.

For bronchial or other severe coughs, or hard colds, Mils Emulsion is really remarkable. The system is built up and strengthened to throw off the trouble. Mils Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physic. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Mils Emulsion is strongly recommended to those whose richness has weakened, and is a powerful aid in restoring and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day. This is the only solid emulsion made, and so palatable that it is eaten with a spoon like a treat.

No matter how severe your case, you are urged to try Mils Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 50c and \$1.00 per bottle. The Mils Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

Do you heed the red flags at the crossings of life?

Nature always warns you of approaching danger

Just as railroads place flagmen at crossings to warn of the approaching trains, so nature sends out flagmen in warning of the approach of some danger to good health. Probably the greatest number of these warnings come from the digestive tract to which it is said at least 90 per cent of all human illness may be traced. You spend a great deal of time in guarding good health by attention to such organs as the teeth, mouth and throat. But—what attention do you give to the intestinal tract, the poor working of which may cause much greater misery and distress? To provide protection for the stomach and digestive tract, Partola

—"The Doctor in Candy Form"—was especially invented. It is a modern combination of laxative and antiseptic ingredients which not only does all that ANY laxative can do, but, in addition, tends to sterilize and disinfect the digestive tract and helps provide protection against the disease germs which are said to breed there.

Partola comes in the form of delicious, palatable peppermint lozenges and is truly as delicious as bon-bons. It is liked by young and old. Get Partola from your druggist today and keep it in your home at all times for all members of the family. Sold at all good drug stores in 25c, 50c and \$1.00 boxes. Get yours today.

Short Shavings

Gwendoline sighed softly, and wept.

"Harold," she blubbered, "you do not love me."

The young man, tattered violently, knitted his brows furrowed, and an excited flush enveloped his countenance.

"Gwendoline," he gasped, "I have recovered from the short. 'Gwen do me!' he repeated. 'You astound me!' When a man deliberately misses the last car for seven nights in succession when he attempts to learn to read, it is a sign just to please a fair maiden, when he reads the cheek and impudence of her rascally young brother, and constantly on his nose, his nostrils, the hated scent of eau de cologne—to suggest he is not a victim of Cupid's bow and arrow is a positive insult."

"Is Professor Diggs a scientist?"

"Yes. He knows more about Mars than any other living man."

"A savant, eh?"

"I guess you would call him that. He's so detached from mundane matters that he sometimes forgets the name of the street he lives on."

The passengers on the pleasure happiness. A majestic ravine, some shimmering brooks, and blue hills were enjoying the beauties of the evening to the full.

Mrs. de Vere surveyed the guests into her view, all tender glances and of the wonderful Highland scenery, and felt she could cry from sheer steamer, having just finished dinner.

RECENT

H. B. Warner in "The Wolf's Ghost" is to his best and fans are enthusiastic over the star's latest production. The picture is showing at the Regent Theatre again today. The action of the play starts when Harry West, whose faith in his own strength and his mother's many years before, goes in search of his father to demand justice for the wrong done. Maudie, a beautiful girl with whom West falls in love, is played by Rita Simwood in pitiable life. Mrs. Warner and others from excellent cast are Mimi Sims, Hector V. Simon, Edw. Paul, Violet, and George Field. The production gives Warner full scope for his fine dramatic abilities, playing the double role of Dr. West and Harry. Gray Wolf's Ghost, showing at the Regent theatre, begins tonight.

Sessia Hixkley will be on Sunday and Monday in "The Troubadour Prince" from the story by Phillips Oppenheim—a real story of love, mystery and suspense. The native Japanese is seen in a role which

TODAY—LAST SHOWING

Presents

Constance Talmadge

"A Temperamental Wife"

In Addition

Kinogram Pollard Comedy

fits him like the proverbial glove. E. Phillips Oppenheim is known widely by the absorbing detail of his mystery stories. One of the most thrilling stories emanating from his prolific pen has been filmed with a famous Japanese actor in its leading role. It should prove most alluring to the photoplay fans of the city. Added attractions of comedy, scenic and travel films are always found on the program at the Regent.

LYRIC

Captivating Constance Talmadge is playing crowds of the city guests at the Lyric theatre in her new play, "A Temperamental Wife." Miss Constance's whole in capturing the affections of Senator Newton are extremely humorous and she can always think up another ruse to get her victim under her magnetic influence. Once when he sees her leaving town for good, she dresses up a dummy and as his car passes a dangerous curve she throws the "lucky" in the path of the machine when unable to stop it once, he returns to find Miss Billie as she is seated in it and faint across the road, having previously disposed of the dummy and substituted her charming self. Naturally the senator is all kinds of a soliloquy and he is shore Phil plays her tramp and then she simply married it. But until the end of the play, but only to destroy their "hot blooded" however who can resist the "b. b. v. n." Her husband and a few others could. The production is at the Lyric today.

FAUROT

Maurice Tourneur has turned the old English melodrama "The Roman Holiday" into a charming motion picture called "The First Time." As seen at the Faurot it has the cream of the old Lyric. Fine situations which used to end, always up and down our spines in the theatre with a shipwreck and a rescue scene that beats anything else of the kind ever filmed. Jack Holt plays a hero for a change and other favorite players in the cast are: Scotty Owen, Pauline Stark, Maurice Laroche, Lewis J. Cody and Tully Marshall. In addition to this exciting photoplay the Faurot's program contains Harold Lloyd's new comedy "Captain Kidd's Kids" which is even better and funnier than his recent one, but Pumpkin, into

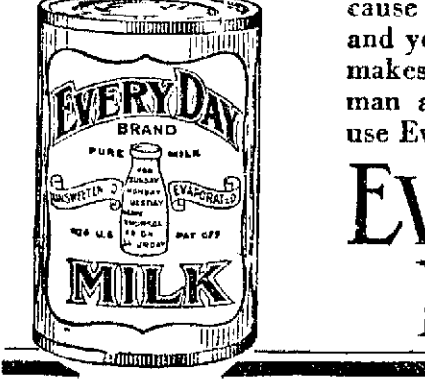

Start His Day Right

WATCH your husband brighten up, when he gets his first taste of that golden brown rich coffee you have made for him with such care.

No wonder it tastes better. You haven't changed the coffee—but you have learned a great secret—you have changed and improved the milk.

You have added Every Day Milk to the coffee to make it richer and to give it a far better flavor instead of thinning and weakening it with ordinary milk. You have added the nourishment of a milk which has in it all the cream of twice its quantity of rich milk!

Because it tastes so good, because it is so rich, so nourishing, and yet costs so little—because it makes you independent of ice man and milk man—Every day use Every Day.

YOU—and National Thrift Day

Are you going to make the observance of this day, Saturday, Jan. 17, count for your everlasting advantage?

Will you be one of the thousands of good Americans who will help this country and themselves wonderfully by looking the future in the face squarely and making provision for it?

Will you be one of the thousands who in the name of patriotism, common honesty and wise self-interest determine to produce all the goods they can, thus adding to the nation's wealth and reducing the cost of living?

And will you be one of the thousands who, to absorb the National Debt and to provide themselves with a safe income, will invest their savings in government securities—bonds, certificates of indebtedness and war savings stamps?

If you join this movement you make conditions better for all, and you help yourself most of all.

INVEST WISELY

Government securities are the best investment for the individual, because they are perfectly safe, easily converted into cash, are tax free and pay good interest.

Savings Stamps invest sums slightly less than five dollars, and return 4 1/2% interest.

Treasury Savings Certificates in \$100 or \$1000 denominations return the same interest.

Treasury Certificates of Indebtedness may be had of the banks.

Government bonds are always good purchases.

Invest your money in government securities.

JACK AND THE CORN STALK

LITTLE JACK B. NIMBLE LIVED ALONE WITH HIS MOTHER AND THEY WERE VERY POOR.

ONE DAY LITTLE JACK PLANTED A CAN OF CORN BY THE BACK PORCH.

THE NEXT MORNING THE CORNSTALK HAD GROWN SO HIGH THAT HE COULD NOT SEE THE TOP.

MAKING HIS LITTLE HATCHET HE CUT NOTCHES IN THE STALK, AND CLIMBED TO THE TOP, AWAY ABOVE THE CLOUDS.

THERE HE FOUND A GIANT'S CASTLE.

AND A GREAT FAT GIANT WITH ONLY ONE EYE IN HIS FOREHEAD CAME OUT.

GR-R-R! I EAT LITTLE BOYS!

WHEREUPON LITTLE JACK GOT OUT OF BED, PUT ON HIS CLOTHES AND WENT DOWN TO BREAKFAST.

THE END

Straus' tuneful comic opera "THE CHOCOLATE SOLDIER" is announced for Tuesday night at the Faurot.

The production is Ralph Dunbar's, and has visited over one hundred cities since the New York revival last February. The role of "Madina" made famous by Alice Yorke is sung by Helene Morill while James Stevenson of the original cast is still in the Bumerie "Chocolate Soldier" role, which the comedy portion of the opera is in the very capable hands of George O'Donnell, who is considered to be America's foremost comic opera comedian.

For Corn, Shelled and Cracked Corn, at Dorsey's.

Pure Bleached Flour and Corn Meal at Dorsey's.

SCHENCK'S MANDRAKE PILLS
